# Managerial Report

## General Details:

Project Name: CarTech  
Project Start: 29/12/2022

## Executive Summary:

The unease of the customer reaching the Car Showrooms and the Service Centers makes the customer waste a lot of time and also the Car Showrooms and the Service Centers lose many customers.  
We aim to make a way of communication that makes the customer reach the Car Showrooms and Service Centers easily.

## Project Resources:

This project only requires 4 software developers and only one month to be completed.

## Risks:

There is a risk which is that we may not be able to beat our competitor (Hatla2ee).

## Quality Assurance:

The Website is always observed by the admins.
